ELECTRIC PALLET JACK (EPJ) CHARGER

AVOID DEAD EPJ BATTERIES

SAFE, SIMPLE, RELIABLE CHARGING.

- Ensures your electric pallet jack stays charged
- Generates power directly from lift gate battery pack
- Built-in lower voltage protection to preserve liftgate operation
- Weather and corrosion-proof plastic box with aluminum frame
- Utilizes opportunity charging for minimal system impact
- Simple connectors in box for ease of installation
- SAE-rated orange AC cable does not require conduit

REQUIRED

EPJ Base Install Kit
401362

- Contains all installation components and cables needed to install unit
- Contains AC 120V cable

CHOOSE ONE

Prepped Trailer Install Kit
