

# CARB FUNDING OPPORTUNITY

**The California Air Resources Board's (CARB) Proposition 1B Goods Movement Program is proposing new eligible project funding for zero emission transport refrigerators (TR) and distribution center (DC) infrastructure categories.**

Transport refrigeration unit (TRU) fleets and refrigerated distribution centers that are interested in funding for zero emission TRs or DC infrastructure may be interested in a workshop webcast that is scheduled for **Monday, April 27, 2015, from 2:00 p.m. to 4:00 p.m.** to learn about CARB's proposed Prop 1B funding guidelines update. Zero emission TRs are all-electric TRs, cryogenic TRs, or fuel cell-powered TRs that must be used with DC infrastructure. DC infrastructure includes electric power plugs that are compatible with (and would be used with) all-electric TRs, hybrid-electric TRUs, or TRUs equipped with electric standby. Infrastructure also includes cryogenic refrigeration fueling equipment leases that would be used with cryogenic TRs.

## PROPOSED FUNDING AMOUNTS

- Replace 5 existing TRUs with 5 zero emission TRs - \$200,000 or 80% cost cap
- Install 10 electric power plugs at DC - \$30,000 or 50% cost cap
- Lease cryogenic fueling infrastructure - \$60,00 or 50% cost cap

The workshop notice and the draft concept paper for the Proposition 1B: Goods Movement Emission Reduction Program Update to Program Guidelines is available at:

## SOLUTIONS FROM THERMO KING

Thermo King offers electric standby across its entire TRU platform - the only one in the industry to do so. Thermo King also offers the most powerful electric standby units in the industry, with SmartPower electric standby available on Precedent units for single and multi-temp units at deep frozen or fresh set points for trailer pull-down or trailer staging. SmartPower electric standby solutions from Thermo King are available in both 230 and 460 volt versions. See your local dealer for details.

## PARTICIPATE IN WEBCAST

**Monday, April 27, 2015, from 2:00 p.m. to 4:00 p.m. at CalEPA's Webcast Website:**
