

V-520RT (Nosemount)

V-520 (Rooftop)

V-520 NOSEMOUNT AND ROOFTOP

The V-520 provides superior cooling performance in two different packages: nose-mount and rooftop. The nose-mount unit is ideal for medium size box trucks, while the rooftop arrangement is perfect for large vans and body-on-chassis vehicles with reach-in side compartments. Only Thermo King offers a unit with this much capacity in a slim line package (just 6 inches above the roof for non-standby units).

Both units use an engine-mounted TK-16 compressor or optional TK-312 reciprocating compressor. Refrigerant R-404a is available for MAX and SPECTRUM units for frozen and multi-temp applications, while R-134a is available for fresh applications.

V-520 FEATURES INCLUDE:

- SmartPower electric standby option (230 VAC)
- Automatic hot gas defrost
- Optional heating package (hot gas, MAX units)
- Jet Lube compressor lubrication
- Jet Cool compressor injection cooling (MAX units)
- DSR controller
- 12VDC
- 24VDC (non-standby units only)
- Lightweight construction
- Very long life condenser fans
